With their minds and bodies hacked, an expedition team from Earth has to survive in the black market of the dark and fog-shrouded town of San Atanasio. They will have to learn to live among themselves, or the real escape mission starts. The game has three factions. The engineers, led by the father of the project, are seeking technology to build a new generation of space-travelers. The smugglers have a habit of stealing technology, and sell it out in the black market. The third team is made of the weak, reckless, and very short-tempered colonial Mars colonial guards. They are the former rulers of Mars. They used to colonize Mars in the 1950's. Then, they all died one day, and their planet was abandoned. Satellite Reign is an ongoing project for over 5 years. The original plan was for a Half-Life 2 mod. However, over the years, the scope of the game has greatly expanded. There are multiple factions, each with their own social view, ethics, skills and weapon customization. The game will include both first-person and third-person perspectives for the players. There will be stealthy and open-world play-styles. Over the years, the game evolved into a traditional co-op shooter with a low distribution and a high complexity. But the core remains the same: the game is co-op in the truest sense of the word. A team has to work together to survive. About The Author: Universe. Me. Life. Gaming. Gaming lives in the Universe. I'm playing games since the Atari 2600 and game until today. I do have a hobby: modding video games. What a wonderful hobby it is! I'm a Dota enthusiast and, during some of my leisure time, I love to play with models. I mainly play in the World of Warcraft community. Also, I like to spend time on the computer and by trying new tech. Also, I'm a huge fan of horror movies. And, I read books (I got my BA in Literature). I like to go out for a walk. I also like music, I like listening to some ambient and rock music. I don't even like jazz. I like to travel a lot, especially to Europe. It's a very beautiful place. And in addition, I love board games and puzzles. I'm a big fan of The Legend of Zelda franchise, the Final Fantasy series and the Castlevania series c9d1549cdd
